EXPERIENCE

Co-founder

AEXL

Dec 2025 – Present Dadu Sindh, Pakistan

- Job description: As Co-Founder of AEXL, I lead the design and delivery of AI-first digital solutions, combining advanced AI, full-stack web, and mobile development to help businesses automate, scale, and innovate. I manage technical strategy, development teams, and client-facing solutions, ensuring high-quality, scalable, and intelligent products.
Key Responsibilities:
Co-founded AEXL, establishing a modern AI-driven digital services agency.
Architected and deployed custom AI agents using LLMs and RAG pipelines.
Designed and implemented scalable web and mobile platforms optimized for performance and reliability.
Developed intelligent chatbots, virtual assistants, and automation tools to streamline business operations.
Led technical architecture, dev teams, and end-to-end product delivery.
Built data-driven marketing and analytics tools to enhance client growth and ROI.
Technical Skills / Tech Stack:
OpenAI API, LangChain, Java, Spring Boot, Python, Node.js, React.js, Flutter, Firebase, MongoDB, AWS, REST APIs.
